

**ECOSLOPS: THE MINI-P2R AWARDED
WITH A «TROPHÉE DE L'INNOVATION OCÉAN»****PARIS, September 24th, 2018**

On the first edition of the Ocean Innovation Awards on Friday 21 September 2018, organized by ADECAN in partnership with the French Maritime Cluster, Energies de la Mer and the Oceanographic Institute - Albert 1er Foundation, Prince de Monaco - the Mini-P2R containerized petroleum residue reclamation unit for all medium-sized ports and innovation Ecoslops, has been awarded the Ocean Innovation Trophy - «Reducing the use of fossil energies» category.

Created in 2018, the Trophées de l'Innovation Océan are intended to help promote innovations or innovative actions, whatever their nature or scope, as long as they comply with one of the following issues: exploit marine renewable energies, reduce use of fossil fuels, reduce marine pollution, preserve biodiversity, sustainably exploit ocean resources, protect coastlines, raise public awareness of ocean protection.

ABOUT ECOSLOPS

Ecoslops is listed on Euronext Growth in Paris - Code ISIN : FR0011490648

Ticker : ALESA / PEA-PME eligible

Investor Relations : info.esa@ecoslops.com - 01 83 64 47 43

Player of the circular economy, Ecoslops has developed and implemented a unique technology to upgrade oil residues into new fuels and light bitumen. The solution proposed by Ecoslops is based on a unique micro-refining industrial process that transforms these residues into commercial products that meet international standards. Ecoslops offers an economic and ecological solution to port infrastructure, waste collectors and ship-owners through its processing plants.
