

## PRESS RELEASE

### ECOSLOPS JOINS THE UNITED NATIONS GLOBAL COMPACT

Paris, September 20th, 2019

Following the [application for membership](#) sent by Mr Vincent Favier to Mr António Guterres, United Nations Secretary-General, Ecoslops officially joins the United Nations Global Compact, the largest international voluntary engagement initiative on sustainable development.

Launched in 2000 by Kofi Annan, the Global Compact of the United Nations is an international framework of voluntary commitment urging economic actors to adopt a socially responsible approach and to integrate and promote 10 principles relating to human rights, standards labor, the environment and the fight against corruption. The movement now has more than 13,000 members worldwide. It is also the starting point for any organization seeking to own and support the Sustainable Development Goals (SDGs), adopted in September 2015 by the UN. These goals are a universal agenda to be implemented by 2030 to build a better world together.

## SUSTAINABLE DEVELOPMENT GOALS

## PRESS RELEASE

Through its membership, Ecoslops is committed to integrating these 10 principles into its strategy, organizational culture and operations. As well as to share the progress made each year with its stakeholders, through the Communication on Progress.

Ecoslops also joins the Global Compact France, official local relay of the Global Compact of the United Nations in France, to make live this commitment and to receive support to reach the fixed objectives. The Global Compact France brings together more than 1,000 companies, half of which are SMEs, and represent nearly 10% of the global movement.

More broadly, Ecoslops is committed to supporting the United Nations Sustainable Development Goals (SDGs) and to promoting the values of the Global Compact in its sphere of influence.

Vincent Favier, CEO of Ecoslops said:

«This commitment is a continuation of Ecoslops' vision, which, by bringing oil into the circular economy, asserts itself as a cleantech concerned about the environment, but also the well-being of its stakeholders and local communities.»

### WE SUPPORT

«Since september 2019, Ecoslops has been committed to the UN Global Compact corporate responsibility initiative and its principles in the areas of human rights, labour, the environment and anti-corruption.»

### ABOUT ECOSLOPS

Ecoslops is listed on Euronext Growth in Paris - Code ISIN : FR0011490648

Ticker : ALESA / PEA-PME & FCPI eligible

Investor Relations : [info.esa@ecoslops.com](mailto:info.esa@ecoslops.com) - 01 83 64 47 43

Player of the circular economy, Ecoslops has developed and implemented a unique technology to upgrade oil residues into new fuels and light bitumen. The solution proposed by Ecoslops is based on a unique micro-refining industrial process that transforms these residues into commercial products that meet international standards. Ecoslops offers an economic and ecological solution to port infrastructure, waste collectors and ship-owners through its processing plants.
