

PRESS RELEASE

ECOSLOPS PORTUGAL SUCCESSFULLY RENEWS AND EXTENDS ITS OPERATING LICENSE

Paris, March 2nd, 2021

Ecoslops Portugal, a subsidiary of the Ecoslops group, is pleased to announce the renewal of its operating license, constituted of an extended storage license (change from SEVESO low threshold to SEVESO high threshold) and an environmental license.

This renewal and extension are proof that Ecoslops operates its unit according to the best world standards thanks to competent teams and adequate facilities (no major investment is required). The SEVESO high threshold status will allow Ecoslops Portugal to go from 5,000 m³ to more than 20,000 m³ of storage. It will allow a more flexible approach to sourcing in the future and therefore to cushion the ups and downs in the supply chain.

Ecoslops Portugal is today one of the few holders in Europe of SEVESO high threshold permits to treat hydrocarbon waste (with or without water), thus benefiting from an additional commercial and industrial advantage in the long term.

ABOUT ECOSLOPS

Ecoslops is listed on Euronext Growth in Paris - Code ISIN : FR0011490648

Ticker : ALESA / PEA-PME & FCPI eligible

Investor Relations : ir-ecoslops@ecoslops.com - 01 83 64 47 43

Player of the circular economy, Ecoslops has developed and implemented a unique technology to upgrade oil residues into new fuels and light bitumen. The solution proposed by Ecoslops is based on a unique micro-refining industrial process that transforms these residues into commercial products that meet international standards. Ecoslops offers an economic and ecological solution to port infrastructure, waste collectors and ship-owners through its processing plants.
