STRONG INCREASE IN ESG RATING AND JUMP IN GAÏA RESEARCH ESG RANKING

Paris, October 28th, 2022

Ecoslops, the cleantech company that brings oil into the circular economy, is pleased to announce a further increase in its ESG rating by Gaia Research.

For the 2021 campaign, Ecoslops Group has been awarded a score of 74/100, an increase of 6 points compared to the previous campaign.

Overall ranking: 39/371 (+131 places compared to the 2020 campaign)

Ranking amongst the companies with a turnover of less than €150m: 12/126

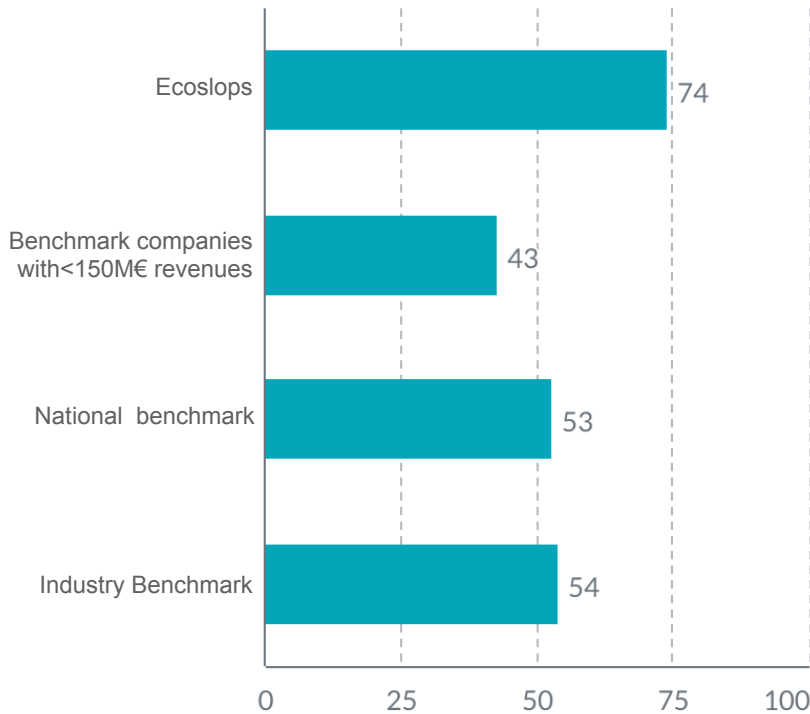

Industry ranking: 7/76

*Evolution of the Gaia Research
ESG rating on the 2018 to
2021 campaigns*

Ecoslops' ESG rating has shown a continuous positive evolution since 2018, the year of its first assessment by Gaia Research. In 4 years, the company's rating has improved from 46/100 (2018 campaign) to 74/100 for the 2021 campaign which has just ended, i.e. an increase of over 60% in 4 years.

PRESS RELEASE

Comparison of Ecoslops score VS benchmarks - Gaïa 2021 campaign

Ecoslops is now well above the national, economic or sectoral benchmark, and has been rewarded this year by its entry into the top 5 of industrial companies in the commercial and professional services sub-sector.

These results once again reflect the company’s commitment to continuous improvement and its efforts in environmental, social and governance matters.

ABOUT GAÏA RESEARCH BY ETHIFINANCE

Gaïa Research is the first rating agency based on ESG criteria (Environmental, Social and Governance) on European Small & Mid Cap. Developed by Ethifinance, the Gaïa Index is the benchmark ESG index for European listed companies. It selects the 70 best average values of its panel 230, according to their extra-financial performance, notably assessing the degree of transparency and maturity of companies regarding their CSR policies, practices and performances. Created in 2009, this index outperforms since its creation the CAC 40 and CAC Mid & Small.

ABOUT ECOSLOPS

Ecoslops is listed on Euronext Growth in Paris - Code ISIN : FR0011490648

Ticker : ALESA / PEA-PME & FCPI eligible

Investor Relations : ir-ecoslops@ecoslops.com - 01 83 64 47 43

Ecoslops is the cleantech that brings oil into the circular economy thanks to an innovative technology allowing the company to upgrade oil residues and used lub oil into new fuels and light bitumen. The solution proposed by Ecoslops is based on a unique micro-refining industrial process that transforms these residues into commercial products that meet international standards. Ecoslops offers an economic and more ecological solution to port infrastructure, waste collectors and ship-owners through its processing plants.
